Pure freedom.

Open enchantment.

The new Bentley Continental GTC offers a seductive But while Bentley honours its own past, it doesn't attempt to combination of power, style and craftsmanship. It's following a recreate it. The Continental GTC continued the revolution celebrated tradition, as Bentley has been making iconic open in all-wheel drive performance that its coupé stablemate, the tourers for over ninety years. Some were built to achieve success Continental GT, had begun in 2003. It was a mould-breaker; at Le Mans and Brooklands, others to convey their glamorous a four-seat open top sports car offering supercar levels of owners to the resorts of Monte Carlo and Cannes, but all had that performance, with luxurious accommodation for four people. indefinable charisma that makes the head turn and the eye linger. Now, in turn, that pinnacle has been surpassed by the new From the golden era of coachbuilding to the Swinging Sixties, Continental GTC: sharpened, refined and rethought in every and from Hollywood to St Tropez, to be seen at the wheel of a detail. So if you're looking for the enchantment of open-top Bentley convertible told the world that you appreciated design, craftsmanship and engineering in equal measure.

motoring, there's no better place to experience it than at the wheel of a Bentley. Now, as always.

Sharp. Like your intake of breath.

The design of the new Bentley Continental GTC doesn't simply millimetre-perfect precision. Such knife-edge clarity could only grade aluminium heated to 500°C, achieves sharper radius lines panel joints. The result can be seen in the chiselled muscularity is often more.

of the front wing and the dramatic impact of the large inner play with light. It dissects it. Each bodyline, crease and swell headlamp, features that draw the eye as never before. But there's of bodywork around wheel arch or engine bay has a look of one panel that isn't made of super formed aluminium, with good reason: the bootlid, with its pleasing double-horseshoe curve. have been achieved using the latest in body panel technology. This panel is made of composite SMC, which is transparent Super forming, a technique that uses air pressure to mould 5083 to GPS and media signals, avoiding the need to spoil that immaculate bodywork with an antenna. As the Bentley design as well as the ability to create complex shapes with a minimum of team know, if you want a design that takes the breath away, less

An eye to the future.

The designers responsible for the Continental GTC's elegant lines talk about the 'face' of a Bentley; those instantly-recognised features of dominant bonnet line, matrix mesh grille, and twin large inner headlamps. It's a design DNA that can be traced back to Bentley's first Le Mans victory, where mesh stoneguards and large, powerful headlamps were a logical response to the demands of 24-hour racing. Today's Continental GTC isn't designed for the racetrack, yet its twin round bi-xenon inner headlamps, encircled by a ring of main beam LED lights, create a sabre of light through the darkness to illuminate the road ahead. Bentley's designers also refer to the 'jewellery' of a design, those stand-out features of a car that draw the eye; the Continental GTC's multi-faceted four-lamp headlamps well deserve that description, with their setting of super formed aluminium wing and encircling ring of polished stainless steel. And while they incorporate the very latest in lighting technology, they also retain an unbroken link to Bentley's design heritage, with the larger of the two headlamps set closest to the grille. Some things are clearly beyond improvement.

It's said that there's a perfect stillness at the eye of the storm. calm. Refinement combined with exceptional performance is Which may explain why the cockpit of the Continental GTC is the mark of every Bentley grand tourer, and the Continental such a relaxing place to be. The W12 engine develops 567bhp GTC extends that tradition. Whether you choose to experience and 700 Newton metres of torque, sending the power to all the high speed stability conferred by its carefully honed four wheels in a rear-biased 60:40 split. 0-60mph takes just aerodynamics, or simply to cruise in near-silence along some 4.5 seconds, hurtling the Bentley forward in a relentless, tidal seafront boulevard, the Continental GTC is obedient to your wave of power. Yet at the wheel, comfortably supported by the direction. Exhilaration and relaxation are not opposites; in the new 'cobra' style seats and surrounded by evidence of Bentley's Continental GTC, they are two sides of the same coin. incomparable craftsmanship in wood, leather and metal, all is

Exclusively yours. With the compliments of Mulliner.

The name Mulliner has been associated with Bentley for many of the Continental GTC's design. For the exterior, unique and exclusivity of a Crewe-built grand tourer. If you'd like to emphasise the high performance side of your Continental sill extension blades, rear bumper diffuser, front bumper lower heritage. A 'jewel' fuel filler cap provides the finishing touch. splitter and front bumper lower grille strakes. These components and the optional carbon fibre door mirror cowls and vented wings will be pleased to rise to the challenge. Among the options that accompany them have proved their worth at speeds well in they can offer are personalised embroidery to the headrests, a excess of 180mph, whilst the optional 21" Elegant alloy wheels in personalised treadplate plaque and even hide-trimmed gear black provide the perfect complement to the package.

Alternatively the Driving Specification adds further make it unique; a Continental GTC that is exclusively yours. exclusivity without detracting from the elegance and simplicity

generations, so their designers and craftspeople have a pretty 21" 2-piece alloy wheels with a choice of painted or polished good idea of how to subtly enhance the style, craftsmanship finishes develop the sporting theme. Inside, the Driving Specification includes quilted perforated hide seats, door infill and rear three quarter panels with embroidered Bentley GTC's character, the Mulliner Styling Specification shown here emblems on the headrests, while the knurled sports gear lever introduces motorsport-derived black carbon fibre for the side and drilled alloy sports foot pedals recall Bentley's grand touring

Should you wish to take things even further, Mulliner's team paddles. In short, they can take an exceptional Bentley and

Above comparison.

Many a convertible that looks good when open looks ill- rear, wrap-around lamps accentuate the low, wide proportions, proportioned with the hood in place. Not so with the Continental flanking a distinctive Bentley 'double-horseshoe' boot lid with GTC; with the hood up it looks taut, powerful and balanced. The a small but effective spoiler on its upper edge. four-layer insulated hood offers astonishing levels of refinement The transformation is simply accomplished. Press the and acoustic insulation. Exhaustively tested, like every Bentley, button in the cockpit that begins the smooth choreography of in all conditions from a Polar minus 30°C to searing heat of the roof folding away and the interior melds into the exterior. 50°C or more, it not only keeps even monsoon-force rain out Immaculately-tailored hide upholstery and mirror-gloss wood of the cabin, it also maintains comfortable, draft-free warmth trim draw the eye, with a ring of polished chrome encircling the on freezing cold days, making the Continental GTC a realistic cockpit to mark the boundary between interior and body. So as proposition for year-long use whatever the climate.

change, emphasising the wide track, four-square stance and can use 365 days a year. Better still, both are equally beautiful. performance focus of this all-wheel drive supercar. At the

the owner of a Continental GTC, you will effectively possess Hood down, the proportions of the body undergo a subtle two Bentleys – a coupé and an open tourer in one car, which you

Take your seat for the performance.

designed to provide supreme comfort for driver and passenger. massage cells, for an invigorating massage that extends right With the new 'cobra' seat design, the seat's surface feels soft down the back to keep you alert and relaxed as you drive. and yielding for an immediate sensation of comfort, yet there's a And for those cool summer evenings or crisp spring mornings,

Choose the optional front seat ventilation system, and excess Three speed settings allow you to achieve the ideal level of heat is drawn out of the seat backrest by silent-running fans, comfort for the conditions. When a convertible looks this good allowing you to enjoy hood-down summer motoring while hood down, you'll want to enjoy it all year round. And with seats remaining cool. This option is paired with a new seat massage like these, you can.

As a Bentley grand tourer, the Continental GTC has been system, including two lumbar massage cells and ten surface

firmer interlayer beneath that provides the all-important support Bentley's engineers have developed an extra inducement to during longer drives. As well as being more comfortable, the enjoy hood-down motoring. With the optional neck warmer new seat is also slimmer in profile than the preceding design, feature, a discreet vent in the seat just below the headrest creating an additional 35mm of legroom for rear seat passengers. provides a stream of warm air to take the chill off your drive.

All you could wish for is to hand.

The cockpit of a Continental GTC is not simply a beautifully-crafted environment. It's also a beautifully-designed one. The interior design team spent many valuable days on the road, observing how drivers and passengers in reallife grand tours interact with their seats, stowage spaces, controls and entertainment systems. One result is that the 'cobra' style seats are both more supportive and slimmer than the previous which offers up to 15GB of storage space for model's, with a seat belt presenter making it music as well as a massive amount of mapping easier to get into the rear seats and creating data. While 15 Gigabytes of music should be extra space in the cabin. The door pocket enough to last you on a round-the-world tour provides more stowage, including a special without hearing the same track twice, you can recess large enough for a bottle of water. An also play music via an iPod™, MP3 player, the enclosed storage area ahead of the gear lever car's own six-disc CD changer or even an SD is illuminated with LEDs, a safe haven for a card. Alternatively, the Naim for Bentley wallet or phone. All leather surfaces are softtouch, yet surfaces are precisely defined. and eight individual DSP modes, is available Another inspired design detail is the detachable as an option for those owners wishing to personal veneered case for sunglasses or keys: it turn their Continental GTC into an open-air slots neatly into the centre console and is concert venue. trimmed in the same hide and veneer as the car From the sweep of the fascia architecture, it belongs to, so a Crewe-crafted reminder of inspired by the form of the Bentley wings, to your Continental GTC can travel with you the satin-chrome dials with their white when you and your car are parted.

In today's 'always on' world, we expect to GTC is a harmonious fusion of traditional craft have access to a world of information and and advanced technology. Such is the tactility entertainment as we travel. And the Continental and ease of use of all the controls that even the GTC doesn't disappoint. At the heart of the longest journey seems to be over too soon. new infotainment system is a 30GB hard drive, At the wheel, function and form become one.

illuminated dials, the interior of the Continental

lose yourself in your Surroundings. Not the road map.

if you didn't notice the touchscreen navigation system on the rapid access to a continent-full of mapping and even the option new Continental GTC. That, for them, would be a sign that of satellite landscape imagery*. As you drive, it provides real they have developed the best kind of technology: the kind that time monitoring of your tyre pressures, access to your phone is so intuitive and straightforward in use that you're hardly even contacts (either via Bluetooth or by inserting your SIM card) and aware of its operation. And the sort of in-car technology that you the opportunity to zoom in or out of mapping at the touch of can operate with confidence, without spending hours searching a finger. It is, in short, a system that's well up to all the latest through the owners' manual.

is quite some achievement, because it's an impressively capable still distinctively Bentley. system. The navigation includes live traffic data*, online access * Not available in all markets

The in-car technology team at Bentley would be perfectly happy for point of interest searches*, a 30GB Hard Disc Drive offering advances for in-car technology. Yet as the delightful detail That the Bentley's new touchscreen interface is so easy to use touch of 'virtual knurling' on the on-screen controls proves, it's

A question of balance.

The Continental GTC doesn't simply convert from coupé to open tourer. It also converts seamlessly from refined and supple cruiser to taut and focused sports car. Around town, you'll notice its flat, calm ride and excellent levels of impact suppression. Potholes and surface imperfections are sensed, but distantly and without jarring, thanks to the carefully-honed spring rates and damper settings which are unique to this model. Yet reach the open road and the sporting side of the Continental GTC's nature leaps into focus. The wider track, solid aluminium cast-forged, high-stiffness front suspension uprights and rear axle aluminium gravity die castings give a poised, precise feel to the chassis, relayed to the driver through the sensitive Servotronic steering. The four Continuous Damping Control (CDC) modes are perfectly tuned for the Continental GTC chassis unobtrusively serving up the right degree of suppleness and resistance for all driving conditions. CDC also has the ability to lower the car twice to improve aerodynamics as the car's speed increases. With the Continental GTC, you don't have to choose between comfort and precision; its engineers have ensured that it offers a perfect balance of both.

Performance to the power of twelve.

You don't have to be a technophile to know that the turbocharged concentration of power in an engine block, the Bentley W12 W12 engine in the Bentley Continental GTC is a modern would surely take it. And figures of 567bhp maximum power, engineering paragon. You simply have to press the throttle together with 700Nm of torque achieved at just 1700rpm, explain and feel the instant surge of torque, the muted growl that how the Continental GTC is capable of reaching 100 miles an signifies endless reserves of power beneath your control. Only hour in just 10.9 seconds, with a maximum speed of 195mph. twelve cylinders give that combination of silken flexibility and On the right roads, in the right circumstances, the Continental refinement together with massive, boundless power. But whereas GTC can hurl you from a standstill to three miles a minute in other twelve-cylinder engines take up an excessive amount of one glorious, sustained rush of acceleration. And yet in town it's underbonnet space, the Bentley's W12 disposes its cylinders in as hushed and tractable as any limousine. That, perhaps, is the four banks of three, like two narrow-angle V6 engines sharing true power of the Bentley W12. a common crankshaft. If there were a prize for the densest

Driven by the power of nature.

In common with its stablemates within the Continental family, the Bentley Continental GTC is capable of running on biofuel So Bioethanol E85 can offer up to 70 per cent net CO2 reduction - E85 ethanol - as well as gasoline. Better still, it requires no on a 'well-to-wheel' basis - the measurement of CO2 release of a special adjustments to be made by its owner before doing so; you fuel from its production ('well') to its combustion or deployment can fill its tank with gasoline, E85 Ethanol, or any combination ('wheel'). In comparison a hybrid's arguable advantages are of the two. Why biofuels, rather than the fashionable hybrid largely confined to stop-start city traffic, and even an electric powertrain? The truth is that when it comes to using a form car requires a polluting power station somewhere to charge its of energy to propel a car, there are no miracle solutions. But batteries. Bioethanol's appeal is that its raw material depends on biofuel offers the undeniable advantage that before being the ultimate renewable energy source, the sun. And perhaps that converted into fuel, biomass waste – plant stalks, leaves and points the way to a brighter future for us all. husks – has spent its life usefully absorbing the same gas, carbon

dioxide, that an engine produces as a by-product of combustion.

An affair of the heart.

rational decision, thank goodness. It's the kind of car apology for prompting this irrational behaviour, and generations. You can say all these things, and they you take extra care to position when parking outside neither should you. You could look at the perfectly- would be true. But you could also simply say this; the your house, so that you can catch glimpses of it from resolved line that runs from front wing to rear Bentley Continental GTC is beautiful, fast and rare. indoors. A car you drive on impromptu journeys that wheel haunch, and call it sculpture. You could run And that, perhaps, is all the justification you need. could otherwise be left to another day. A car that has your fingers along the veneer fascia, and marvel at

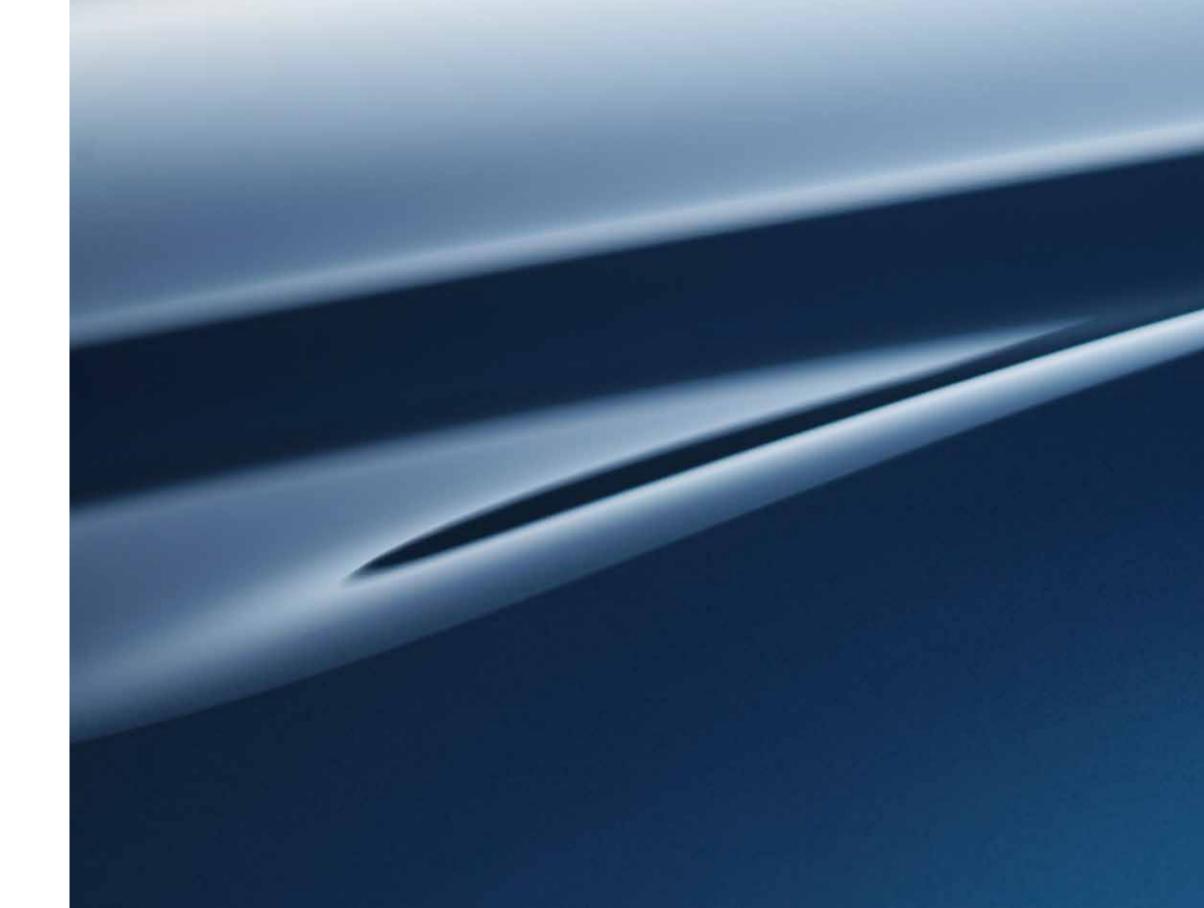

Choosing the Continental GTC is not an entirely two-week tour for the summer. Bentley makes no uncompromisingly-engineered car will endure for you tracing a coast road on the map, or planning a its craftsmanship. You could reason that such an

A world of choice awaits you.

It would take a mathematician with a plentiful supply of patience It can, nonetheless, be a little daunting to make one's choice from to work out how many possible permutations of colour and trim the myriad of possibilities. Fortunately Crewe's designers have are attainable for the Continental GTC. Even without taking devised a selection of harmonious colour and trim combinations into account the enormous range of bespoke colours, there are to inspire you, which you will see over the next few pages. And still seventeen core exterior finishes, seven different veneers, by scanning the QR code on this page with your enabled mobile seventeen premium grade hide colours and even eight different device or tablet device, you can browse through another 36 hood colours to choose from. And this is as it should be. Each recommended specifications. The choice is yours; your Bentley Bentley can be as unique as its owner, and there need never be dealer will be happy to bring your vision to life using paint colour another one quite like it.

samples and swatches to help you decide.

fust when you thought you'd seen it all.

There is no such thing as a standard Bentley, but some are truly if even this encyclopaedic selection fails to provide the shade unique. As well as the seventeen exterior paint finishes selected you have in mind, Bentley's paint specialists will be pleased for the Continental GTC, your Bentley dealer can also show you to match any colour you like and reproduce it upon the mirrora further 123 optional paint finishes, including solid, metallic, like finish of a Bentley's bodywork. In recent years they have pearlescent and satin-finish colours. Among this extended been asked to match a Bentley's paint finish to a nail polish, to a selection is Breeze, a bespoke paint developed specifically for 50-year old classic car and even a toothbrush. Once the shade the Continental GTC. It's described as a flip-effect metallic has been mixed, the real work begins. Only when the primer that reveals a whisper of green, but retains an element of silver. coat is considered flawless will the colour basecoat be applied by Breeze harmonises beautifully with Porpoise and Brunel, the hand, after which come the lacquer coats and the patient process two hide colours chosen for it by Bentley's colour experts. And of sanding, flatting and polishing, until perfection beckons.

FEATURES

- Permanent all wheel drive 40:60 split
- Touch screen infotainment system with Hard Disc Drive, Google Maps,† iPod connectivity, single DVD/CD slot, voice activation
- External media interface (in glovebox)
- Flexfuel compliant up to E85
- Quickshift gearbox
- Cobrahead 4 seat design with straight flutes
- 20" 5-spoke alloy wheels painted

- Roll Over Protection System
- 17 exterior paint colours (Beluga, Onyx, Granite, Moonbeam, Hallmark, Thunder, Havana, St. James' Red, Sandstone, White Sand, Glacier White, Midnight Emerald, Cumbrian Green, Dark Sapphire, Blue Crystal, Silverlake, Aquamarine)
- 16 leather hide interior colour choices (Beluga, Dark Bourbon, Brunel, Imperial Blue, Porpoise, Saffron, Magnolia, Fireglow, Hotspur, Newmarket Tan, Cumbrian Green, Savannah, Aquamarine, Linen, Burnt Oak)
- 6 colour splits
- Burr Walnut Veneer
- Twin armrest (to front) with stowage
- Build-plaque treadplates
- Ski hatch
- Power boot opening
- Iron Vented brake discs black painted callipers
- Driver, passenger & individual seat airbags, driver knee airbags (North America only) as standard
- Bentley branded 'T' piece engine cover
- Charged air cooling
- Twin exhaust pipes
- Hide trimmed gear lever
- Electronic parking brake with drive away assist
- Brake system with Electronic Stability Programme (ESP), anti-lock braking (ABS), Traction assistance (ASR), Electronic brake force distribution (EBD), Hydraulic brake assistance (HBA), Drag torque control (MSR) & aquaplane detection
- Electronic tilt & reach adjustment steering column with memory and easy entry functions
- Single tone, 3-spoke, hide trimmed steering wheel
- Standard fuel filler cap
- Central locking with remote boot release
- Black hood colour
- (or from further standard selection: Blue, Beige, Claret, Grey)
- Door area lighting in lower edge of exterior mirrors
- Entrance lighting in lower edge of each door (puddle lamp)
- Colour keyed electronically adjustable door mirrors with heating, power folding and memory function
- Keyless entry & ignition
- Rain-sensing windscreen wipers

• Electronic Tyre Pressure Monitoring System (TPMS)

- Rear diffuser
- Wheel bolts with Thatcham security bolt
- Driver front seat 14 way adjustment & memory including lumbar and nose extension
- Passenger seat 14 way adjustment & memory including lumbar (12 way in North America)
- Wind deflector (no cost option)
- Boot carpet in Beluga
- Seat belt colours available to match main or secondary hide
- White illumination to instrument panel
- Footwell illumination
- Centre console stowage illumination
- Breitling clock
- 8 Channel, 8 speaker audio system
- Telephone control via infotainment controls including voice activation
- Park distance control
- Volumetric ultrasonic alarm
- Bentley GPS tracking system provision
- Climate control multi-zone
- Cruise control
- Isofix rear seat fixings

GTC accessories.

The GTC wllection.

When something is as meticulously crafted as a Bentley, it's natural to want to enhance and protect it - and Bentley accessories make it easy to do both, with a selection that includes the Continental GTC car cover, Bentley 'B' valve caps and a range of car care products designed exclusively for Bentley by Autoglym. Alternatively, for a more personal form of indulgence, the Bentley Collection offers a choice of beautifully-crafted gifts, from an exact 1:43 scale model of the Continental GTC to a set of driving gloves by Dents, whose craft tradition can be traced back to 1777. As a result, whether you're choosing for your Bentley or yourself, Bentley accessories and the Bentley Collection will give pleasure out of all proportion to its price. Much like a Bentley itself, in fact.

Please contact your Bentley dealer representative for details on the full accessories range. For the Collection, visit www.bentleycollection.com or ask your dealer for a brochure.

Spirit of open top notoring.

In the Bentley Continental GTC, the designers and engineers of around you in comfort. In summer, there's simply no better place Crewe have created a car for all seasons. In winter, its all-wheel to be than behind the wheel. And throughout the year, the power drive transmission and insulated four-layer fabric roof give it of the Bentley W12 engine and the inimitable craftsmanship of the practicality of a Bentley coupé. During spring and autumn, its interior will exhilarate and delight. A Bentley open tourer is features like the heated seats and neck warmer will tempt you no fair-weather friend. And this Bentley open tourer may prove to lower the hood and enjoy the panorama of the changing world to be the best that Crewe has ever created.
